

1. Title of the certificate (TR)
Hidrolik - Pnömatikçi Mesleki Yeterlilik Belgesi (Seviye 4)
(*) In the original language

2. Translated title of the certificate (EN)
Hydraulic - Pneumatic Technician VQA Vocational Qualification Certificate (Level 4)
(*) If applicable. This translation has no legal status.

3. Profile of skills and competences		
A typical holder of the certificate is able to:		
UNIT CODE	TYPE	UNITS
12UY0080-4/A1	MANDATORY	Occupational Health and Safety at Hydraulic Pneumatic System Applications <ul style="list-style-type: none"> Applies the rules of occupational health and safety at hydraulic pneumatic system applications. Conducts the emergency procedures.
12UY0080-4/A2	MANDATORY	Environmental Protection and Quality Management Systems <ul style="list-style-type: none"> Conducts environmental protection measures. Conducts the quality management systems.
12UY0080-4/B1	OPTIONAL	Technology of Hydraulic <ul style="list-style-type: none"> Has knowledge of hydraulic. Has knowledge of reading project at hydraulic systems.
12UY0080-4/B2	OPTIONAL	Technology of Pnaumatic <ul style="list-style-type: none"> Has knowledge of pneumatic systems. Has knowledge of reading project at pneumatic systems.
12UY0080-4/B3	OPTIONAL	Hydraulic Systems <ul style="list-style-type: none"> Prepares the components to be used in hydraulic systems. Mounts the hydraulic circuit. Performs the test of hydraulic circuit.
12UY0080-4/B4	OPTIONAL	Pnaumatic Systems <ul style="list-style-type: none"> Prepares the components to be used in pneumatic systems. Mounts the pneumatic circuit. Performs the test of pneumatic circuit.
12UY0080-4/B5	OPTIONAL	Maintenance and Repair at Hydraulic Systems <ul style="list-style-type: none"> Performs maintenance operations at hydraulic systems. Performs troubleshooting and repair operations at hydraulic systems. Sets hydraulic systems into operation after repairment.

12UY0080-4/B6	OPTIONAL	Maintenance and Repair at Pnaumatic Systems <ul style="list-style-type: none"> • Performs maintenance operations at pnaumatic systems. • Performs troubleshooting and repair operations at pnaumatic systems. • Sets pnaumatic systems into operation after repairment.

6. Officially recognised ways of acquiring the certificate

This document is prepared for candidates applying to authorised certification bodies, in the case of meeting the performance criteria after theoretical and applied assessments are made and each required unit for obtaining the qualification is successfully completed.

The performance criteria and assessment rates may be different for each qualification.

Entry requirements

There is not an entry requirement for this national qualification.

Information

12UY0080-4 / 26/09/2012 Rev. No:00

Additional information

It is an equitable, transparent and confidential system including rules and activities regarding the development and application of technical and vocational education standards and qualifications, and accreditation, authorisation, audit, assessment, certification related to them, based on national and international occupational standards.

The levels of VQA Vocational Qualification Certificates in relation to Turkish Qualifications Framework are defined as a result of comparing the learning outcomes of the related national qualification to TQF level descriptors. TQF level descriptors, defining the minimum learning outcomes required for the qualifications levelled according to TQF, are available at <http://www.tyc.gov.tr/st>. Since TQF is referenced to European Qualifications Framework (EQF), eight TQF levels correspond to eight EQF levels. Level 4 qualifications for which this certificate herein is issued are defined as "Employee exercises self-management for the work or study activities that are usually predictable, but are subject to change; supervises the routine work of others, taking some responsibility for the evaluation and improvement of work or study activities."
